

FLEXIBLE COVER FOR THE HOSPITALITY INDUSTRY

Towergate Licensed Trade, who are part of the Towergate Group, can provide an insurance policy which is tailored to your specific needs in the licensed trade sector.

Towergate Licensed Trade provide flexible cover, placed with established and experienced insurers, with insurance products that offer some of the widest cover available in the market. Very few brokers can offer this combination of protection and we will always look at reducing potential gaps in cover.

For example, if you run a busy pub or restaurant, it is vital that care is taken to protect you from any consequential loss of profit, should you suffer a loss. Towergate Licensed Trade will take the time to understand the risks you face, to ensure that, in the event of a claim, you are properly protected, and your business operation can return to normal as soon as possible. If your pub or restaurant is based in a heritage property, or is part of a larger business operation (for example offering accommodation and/or events), we have experts with specialist knowledge who can assist you to arrange bespoke cover.

You choose the cover you need for the specialist risks that

can affect your business and venue. We work with expert underwriters in the licensed trade insurance arena, and the cover is designed for a wide range of different venues.

If you are unsure if you need to change your insurance provider, to help with your decision making, Towergate Licensed Trade are offering a FREE 'Silent Review' of your existing insurance policy. The review is conducted in the strictest confidence by a specialist licensed trade insurance sales team and won't disrupt your existing arrangements. To find out more, please click on the link to the right of the page.

For more information about Towergate Licensed Trade, and to receive your **10% exclusive member discount** on our insurance policies, please contact the team at Towergate Licensed Trade, quoting the reference: Forum of British Pubs and providing your membership number.
